

SELF-ADHESIVE MOUNTING AID

The KSDR/FIX is a small aid specially designed to make mounting of smaller DIN rail mountable components easier. It can be used whenever the installation of a DIN rail is impractical, or when there is not enough space left in an enclosure.

Because of its industrial grade self-adhesive it can be installed much easier and quicker than a conventional DIN rail, without the effort of hole drilling and screw mounting. This is especially practical for subsequent changes or additions in an already equipped enclosure.

The KSDR/FIX can hold components up to 1.1 lbs in weight. Some of the many applications include the mounting of timing relays, series terminals, thermostats, cable channels and even small heaters. In addition, DIN rails can be mounted simply by using several KSDR/FIX units.

If the weight of attached components exceeds the load limit, or if a more secure mounting is desired, (e.g. on rough surfaces), it can also be screw-mounted. All that is necessary to install KSDR/FIX is a smooth and clean surface. The initial adhesive power is 40%, and after 24 hours, it has its full holding power of 1.1 lbs.

Application example

Technical Documents

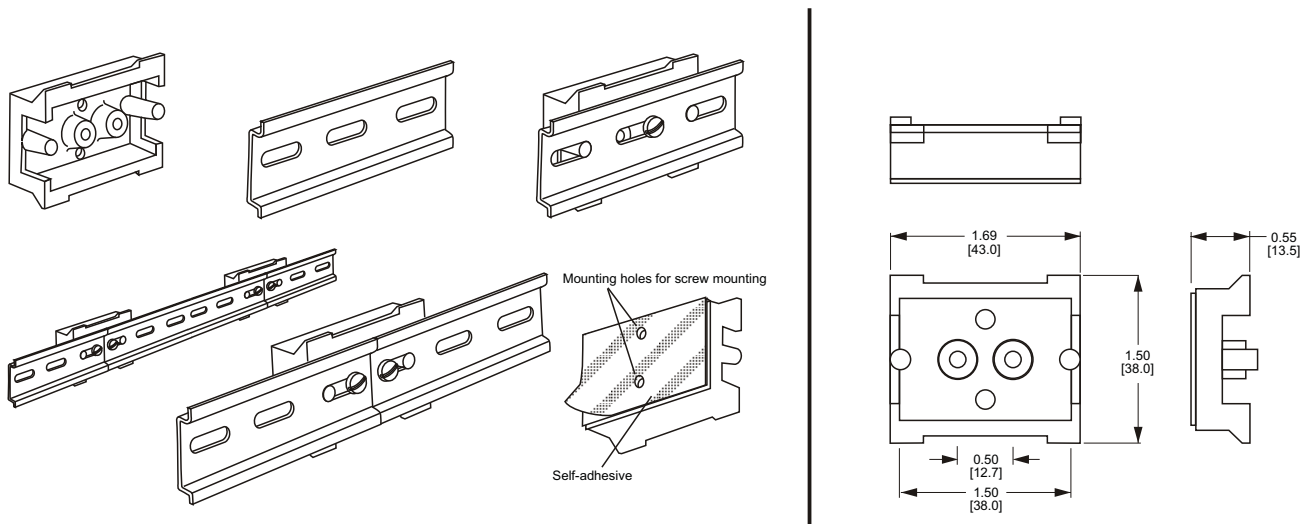

TECHNICAL DATA

Model Number:	KSDR/FIX
Application:	Direct attachment of small components and 35 mm DIN rails (EN 50022)
Capacity:	7 oz (200 g) initially 1.1 lb (500 g) after 24 hour waiting period
Mounting surface:	All smooth surfaces, e.g. metals, lacquered surfaces, plastics other than polyethylene, polypropylene and rubber. Mounting surface must be dry and free from dust, oil, separating agents and other contamination.
Dimensions:	1.7 x 1.5 x 0.55" (43 x 38 x 14 mm)
Hole pattern:	0.5" distance, Ø 0.14" (12.8 mm; Ø 3.6 mm)
Material:	polyamide (rated UL94V-0) with non-deteriorating high-performance adhesive
Temperature range:	-49° to 158°F (-45° to 70°C)
Included:	mounting screw for perforated DIN rail
