

# Kooltronic Refrigeration System Manufacturing

From design concept to production or build to print

Kooltronic is uniquely qualified to manage all phases of refrigeration system development and manufacturing. Call us with your design, engineering, testing, prototyping and manufacturing needs from simple air movers to compressor-based refrigeration systems. Our facility features state-of-the-art equipment and has scalability to meet small or large volume projects. In-house capabilities include: powder paint, tube bending and sheet metal fabrication. Revision documentation with paperless manufacturing procedures assure consistent quality in each phase of our assembly process.

## Trust your Custom Refrigeration Project with us

- In-house engineering staff
- Fast prototyping
- Integrated 3-D design system
- Environmental test chamber
- UL approval assistance
- Close tolerance temperature control systems
- ISO 9001:2015 Certified
- Enterprise software system
- Cost Savings

### How can you gain the Kooltronic advantage?

Contact Kooltronic today to discuss your organization's needs. We can partner with you to obtain your goals. **Let our experience work for you.**
