

Guardian/GuardianX Series NEMA 4 or 4X Filter Fans

DESCRIPTION

Kooltronic has expanded its line of filter fans to include models offering the security of **NEMA 4** or **4X** Ratings together with the versatility of indoor or outdoor use. All **Guardian Series Filter Fans** have a **NEMA 4** Rating. The **GuardianX Series Filter Fans**, with a **NEMA 4X** Rating, are offered with a stainless steel shell. These **UL/CUL Listed** filter fans are a perfect choice for dissipating high heat loads economically, with airflows from 20 to 350 CFM (fan airflow with filter).

The **Guardian/GuardianX Indoor/Outdoor Filter Fans** offer convenience, versatility and reliability, and are an excellent choice for washdown, telecommunication and the food service industry.
